MEMORANDUM FOR: Associate Deputy Director for Administration
SUBJECT : CIA "Penetration" of the White House and
Other Agencies

1. Mr. Colby today returned the "Sensitive Issues and Allegations" paper No. 5, subject as above, dated 29 October.

2. His only notes were on the paragraph of "Recommendations." As the attached page indicates, he considers the first two recommendations "Done," and he indicated disagreement with the third recommendation, which would have involved an unclassified public release.

3. On the basis that both actions which the DCI marked "Done" have been accomplished, I see no further required action on this paper.
